Lucenta

Lucenta — Premium Deer Placenta Cellular Nutrition

Sourced from pure New Zealand red deer, known worldwide for clean origin, natural grazing, and high bio-activity. Lucenta ensures strict farm control for purity, safety, and potency.

Why Deer Placenta?

Modern stress, pollution, and aging speed up cell damage, leading to weaker immunity, dull skin, slower metabolism, and hormonal imbalance. Deer placenta is rich in bioactive nutrients that support cell renewal, repair, vitality boost, and overall wellness. Lucenta integrates biotech extraction + research-grade placenta essence, making cellular care safe, effective, and easy to maintain daily.

Premium Anti-Aging Nutrition / Advanced Cellular Revitalization Solution

LUCENTA[®]
DEER PLACENTA 鹿胎素

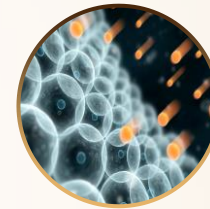

Core Benefits

One Key Value:

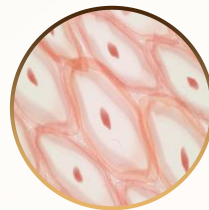

「Revitalize cells from the inside — repair, regenerate, stay youthful longer.」

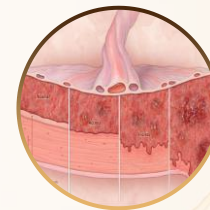

Safe & 100% Pure Source
